🔥 **WHY THIS IS THE OPTIMAL 18-MONTH U.S.-ONLY PLAN**

✓ **Faster time-to-impact**

Donors love a **fast deployment**.

✓ **Stronger optics**

“Mega Lawfare launches in 6 months. Full capability in 18 months.”

✓ **Avoids cost blowouts**

International compliance, translations, treaties, and cross-border evidence chains are extremely expensive. Removing them saves millions.

✓ **Optimized for U.S. legal environment**

All AI models can train solely on U.S. case law, U.S. procedure, and U.S. constitutional
protections.

✓ Technology matches mission

Mega Lawfare’s mission is “citizen power over government power” — domestic threat, domestic
solution.
